*Type: L: Leading Edge, T: Trailing Edge

Note: The first number after a check mark is a minimum number of lamps per dimmer; the second number after a check mark is a maximum number of lamps per dimmer.

Please Note:

- The recommended list is based upon testing conducted by the manufacturer in a lab simulated environment, and the results can vary in certain field applications due to a number of factors.
- The absence of a dimmer from this chart does not necessarily imply incompatibility.
- Please reference the dimmer manufacturer's instructions for installation.

Application Notes

- In situations where there are multiple dimming circuits sharing the same breaker feed, ELV dimmers should be used.
- For best dimming results, the ELV dimmer or trailing edge dimmer type is recommended.
- ELV dimmer or trailing edge type dimmer required the neutral wire for installation.

Please Note:

- The recommended list is based upon testing conducted by the manufacturer in a lab simulated environment, and the results can vary in certain field applications due to a number of factors.
