

MarvaLED® Super Hybrid T8 Lamps

**Preliminary Data
Specifications subject to change**

Family of T8 Lamps Providing the Greatest Flexibility in one Form.

Features and Benefits

- **Ballast Compatible:** works with both T12 magnetic and Electronic ballasts as well as T8 ballasts providing the option to utilize the existing ballast in any 4 foot fixture.
 - T12 Plug-n-Play: **No need to change ballasts or sockets**
 - T8 Plug-n-Play: **Retrofit current T8 fixtures** with installed T8 instant start or select programmed rapid start (parallel wired) ballasts
- **Ballast-Free:** Double-ended bypass design allows for safe modification of T8 or T12 existing fixtures
 - Should ballast fail during the life of the lamp, **simply re-wire** the fixture for ballast-free operation, extending the life of the installation and investment
- Ease of Installation: **Use shunted or non-shunted sockets**
- **Long life:** 60,000 hours, reduces maintenance costs by extending duration between re-lamps.
- Availability: Offered in **4ft, 3ft, and 2ft** lengths.
- **Warranty:** Limited lamp warranty of up to **5 years** (24/7 operation) for worry-free installation.
