

The Expertise of our People

- We have a dedicated sales force and national account management team that can advise you on your product options, pricing and ordering information.
- We offer a team of commercial engineers that can help with any technical questions.
- We partner with distributors, contractors, and fixture manufacturers to provide the most comprehensive support and consultation services in the industry. SYLVANIA products are available through some 5,000 stocking distributor locations, ensuring the right servicing distributor is assigned to your location.
- We also can help with installation and service. SYLVANIA Lighting Services (SLS) is the industry leader in lighting service and maintenance with 40 years of experience.

Beyond Product and People

- **Information:** We offer data on utility rebates and rates.
- **Warranty:** SYLVANIA energy-saving lighting systems are backed by the most comprehensive system warranty in the industry.
- **Commitment to the Environment:** We are committed to offering you product designs that are more energy-efficient and offer increased service life thereby reducing environmental impact.
- **Recycling:** We also can help with installation, service and recycling.

One Contact with a Network of Support

When you partner with SYLVANIA, you aren't just buying a lighting system. You'll receive a single point of contact for all of your lighting needs. We offer a comprehensive program providing installation, maintenance, financing and recycling.

We are here to help you through the process of upgrading to energy-efficient lighting every step of the way. We are the partner you need for lighting expertise, service and support from start to finish and beyond. Our network is in place and ready to serve you.

SEE THE WORLD IN A NEW LIGHT

www.sylvania.com/Stimulus2009

What's the best way to invest recovery act funds in your offices?

SEE THE WORLD IN A NEW LIGHT

ANSWER. A SYLVANIA energy- efficient lighting system.

The savings generated from a SYLVANIA lighting system will save you money today and year after year. These dollar savings allow you to reinvest in other programs that will benefit your local communities.

A turnkey lighting solution from SYLVANIA helps you through the process of upgrading your system from beginning to end and beyond.

According to The Department of Energy, lighting represents 29% of the electric expense in office buildings. With an upgrade to energy-efficient lighting, energy savings could be as much as 50%.

"WE ARE GOING TO HAVE TO MAKE OUR BUILDINGS MORE EFFICIENT. WE'RE GOING TO HAVE TO MAKE OUR LIGHTING MORE EFFICIENT."
Barack Obama, January 8, 2009

Case Study:

U. S. Green Building Council (USGBC) Headquarters

Goal:

Reduce lighting power consumption by 35% by using the most advanced green building products and practices.

Background:

U.S. Green Building Council moved its headquarters to the DuPont Circle neighborhood of Washington, D.C. The designers utilized SYLVANIA OCTRON® XPS® and XP® ECOLOGIC® T8, PENTRON® ECOLOGIC® T5 fluorescent and DULUX® compact fluorescent lamps to achieve their goal.

Savings & Benefits:

The USGBC headquarters was able to reduce its lighting power consumption by 35% as well as achieve its own LEED Commercial Interior Platinum certification.
